Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

Figure 4 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated, as indicated on page 1, line 21 of the instant application. See MPEP § 608.02(g).

The drawings are objected to because each figure must have a unique figure number, such as "Fig. 1A" or "Fig. 1B". 37 CFR 1.85(u)(1) Correction is required.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over US patent 5433454, Ramberg in view of US patent 5967489, Nakazawa et al. Ramberg discloses a fluid coupling comprising first and second coupling members (10, 10') having respective gasket holding annular ridges (29) on butting end faces thereof, and an annular gasket (20) interposed between the two coupling members, the fluid coupling being characterized in that at least has a fluid channel comprising an opening passageway (12) orthogonal to the butting end face thereof, the opening passageway having a diameter equal to the inside diameter of the annular ridge, and the gasket having an inside diameter smaller than the diameter of the opening passageway. Ramberg does not disclose a slanting main passageway communicating with the

opening passageway, and having a diameter smaller than the diameter of the opening passageway. Nakazawa et al teaches a slanting main passageway (41) communicating with an opening passageway (18), and having a diameter smaller than the diameter of the opening passageway "to ensure improved fluid tightness" (column 3, line 50). It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide a slanting main passageway communicating with the opening passageway, and to provide a diameter smaller than the diameter of the opening passageway to ensure improved fluid tightness, as taught by Nakazawa et al.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
